

## Don't Forget, My Love

music & lyrics by Tysa Goodrich

1) I float above a crystalline sky  
Forever is such a lonely word tonight  
Because my life too soon becomes a memory  
It's time to say goodbye... Oh - - - - -

CHORUS: Don't forget, my love...  
We will meet in the stars above  
Do you feel what you mean to me  
There's so many roads yet to go down  
It won't be long... Your heart is strong...  
Lovin' so good...

2) Take my hand and hold me one more time  
I'll always be inside your heart, you in mine  
When I see you my soul cries just another day  
But it's time to say goodbye... Oh - - - - -

CHORUS: Don't forget, my love...  
We will meet in the stars above  
Do you feel what you mean to me  
There's so many roads yet to go down  
It won't be long... Your heart is strong...

### Instrumental Bridge

3) Another life, another go 'round  
I'll look for you, some place where you can be found  
Because our love will always have a memory  
But it's time to say goodbye... Oh - - - - -

CHORUS: Don't forget, my love...  
We will meet in the stars above  
Do you feel what you mean to me  
There's so many roads yet to go down  
It won't be long... Your heart is strong...
