

**For My Hero** (song for veterans)

words & music by Tysa Goodrich

A summer's day, a winter's night  
The falling snow, the burning light  
All around you  
Adversaries in your sight

The bursting bombs forsake your heart  
The way you put yourself in harm's way  
For me  
I believe you make me free  
Oh-oh-oh-oh

CHORUS: Take away the shackles and chains for my hero  
Know you're not alone  
Dream the world at peace and without war for my hero  
Soldiers coming home  
For my hero

For my hero, for my hero, for my hero, for my hero

About the time the sun goes down  
You wonder if you'll be around  
Tomorrow  
Your soul will keep you through the night

A morning rain begins to fall  
A gentle breeze begins to call your name  
Out loud  
You're the seed that springs to life  
Oh-oh-oh-oh

CHORUS: Take away the shackles and chains for my hero  
No, you're not alone  
Dream the world at peace and without war for my hero  
Soldiers coming home  
Oh the eagle flies above the fruited plain for my hero  
The buffalo still roam  
For my hero

For my hero, for my hero, for my hero, for my hero
